Text Amendment Application No. TA-14-002 was initiated by the City of Fresno Development and Resource Management Department and will be effective citywide in the City's designated Urban Growth Management (UGM) areas. This text amendment proposes to amend Fresno Municipal Code Section 12-4.508-E relating to UGM Area Fire Stations and development restrictions. This Text Amendment would allow the Fire Chief to determine Fire Department response time based on appropriate criteria. Physical "running" distance has been used as the criterion for Fire Department UGM determinations, but response time can now be determined (modeled), using software tools that take additional data into account.)

- 5. UNSCHEDULED MATTERS**

Unscheduled matters are items added to the agenda without the required 72-hour legal notice requirement. These items may be discussed but official action may not be taken until legal notices are given as required by law.
