

**EMPLOYEE TRAINING RECORD**

**TRAINING TITLE**      Flail Mower

**KEY TEACHING POINTS**

- Extreme caution must be used when operating this implement. The blade speed on the outside edge is approximately 100 mph.
- Do not permit anyone but the operator to ride on the tractor at any time.
- Always shut off the tractor and disengage the PTO before attempting to clean or adjust the implement.
- Keep safety shields and curtains in place at all times.
- Keep others from the rear of the mower when operating.
- Keep the tractor keys where they are not available to children.
- Operating at speeds in excess of manufacturers recommendation can cause premature wear or damage to the machine and might possibly result in personal injury.
- Never run the mower without the blades and blade carrier rods in place.
- Do not run the blades into the ground. The renovating blade is not designed as a soil renovator, and should be used only to cut crop cover on top of the soil. Use only a full set of renovating blades. The renovating blades should not be interchanged with standard blades.

**TEST**

QUESTION	ANSWERS	
	TRUE	FALSE
1 Keep safety shields and curtains in place at all times.		
2 Do not permit anyone but the operator to ride on the tractor at any time.		
3 Do not run the blades into the ground.
