

EMPLOYEE TRAINING RECORD

TRAINING TITLE **Vegetation Management**

KEY TEACHING POINTS

HAZARDS

- Moving traffic
- Toxic chemicals
- Moving equipment

- Unstable terrain
- High pressure hoses
- Handling fertilizers

PERSONAL PROTECTIVE EQUIPMENT

- Hard hat
- Gloves
- Respiratory protection

- Eye protection
- Safety boots/shoes

SAFE OPERATING PROCEDURES

- Review safe practice rules for applicable equipment (including rental equipment) and perform pre-operational checks.
- Review work area protection and any traffic control requirements.
- Park in an area suitable for entering and exiting your vehicle which does not cause a hazard to yourself or others.
- Allow ample space for each employee to work safely. Do not “bunch” up.
- While on foot, make every effort to perform your work facing oncoming traffic.
- A respirator may be required.
- Beware of hidden obstructions in grassy areas or unstable terrain.
- Refer to general instructions for applying or mixing materials.
- Do not exceed recommended pressure. Check for wear and tear on hoses. Check pressure regulator to see if it is working properly.
- Review emergency medical plan and have location of nearest medical facility in vehicle where applying chemicals.
- Be sure that fertilizer mist blower is properly grounded.
- Keep chemicals in locked storage.
- Insure that clean water and soap are available at the worksite.
- No spraying from cone baskets.
- Test pump and system and perform calibration before adding chemical.

TEST

QUESTION	ANSWERS	
	TRUE	FALSE
